CONSOLIDATION

To assure efficiency and consistency in our fast paced, ever changing environment, the following principles should be applied:

Consolidation:

1. Never go into or leave the kitchen empty handed. Look around for things to do. Do not have tunnel vision.
2. If you are seated more than one table at once, take the drink orders for all tables at once.
3. Ring all food orders as you go.
4. Work your station as if it were one big table
5. Never stand in the kitchen waiting on an order when you can be doing something else. Run someone else's food. Do something! Keep moving!
6. Carry as much as possible to reduce trips. Use LARGE trays!
